History:

The College of Food Technology, Kashti, Malegaon was started from the academic year 2021-22 with intake capacity of 40 students per year for B.Tech (Food Technology) degree course. Malegaon is a municipal corporation situated near the National Highway 03 in Nashik District. It is located 150 Km towards the North from Mahatma Phule Krishi Vidyapeeth, Rahuri, Dist. Ahmednagar. The Krishi Vidnyan Sankul has about 249.04 hectares of land. The work of construction of College Building, Library, Hostels, Staff-quarters & guest house is in progress. Similarly the work of laboratory having equipment for conducting practicals of the students is in progress. The college is also arranging industrial visits of students to make them aware of the food processing technologies. Besides teaching to the under graduate students, the work of tree plantation, renovation of old trees & solving problems of farmers by the technical staff is going on.

Mandate & Objectives:

- To establish a world class institution that grooms future leaders who can make a difference in food industry sector by developing it through value addition of agro-products due to which the present economical imbalance between the urban and rural areas will be minimized.
- To educate and develop food technologists in dynamic environment. So that our students will be equipped to become leaders in food processing, living ethical and fulfilling lives with a strong sense of personal accountability and civic responsibility.
- To create the confidence amongst the graduates for entrepreneurship, consultancy and self-employment.
- To create leadership amongst the graduates through value addition of agricultural

produce, this in turn will be helpful for doubling the farmer's income.

Faculty:

The proposal for sanction of teaching staff position as per V Deans Committee Recommendations for College of Food Technology, Kashti, Malegaon has been submitted to Government of Maharashtra. At present, the Pooled and Contractual Faculty is being utilized for teaching.
