E-Mail ID. agrienggkashti@gmail.com

History:

The College of Agricultural Engineering and Technology, Kashti, Malegaon was started from the academic year 2022-23 with intake capacity of 40 students per year for B.Tech (Agricultural Engineering and Technology) degree course. Malegaon is a municipal corporation situated near the National Highway 03 in Nashik District. It is located 150 Km towards the North from Mahatma Phule Krishi Vidyapeeth, Rahuri, Dist. Ahmednagar. The Krishi Vidnyan Sankul has about 249.04 hectares of land. The work of construction of College Building, Library, Hostels, Staff- quarters & guest house is in progress. Similarly the work of planning of demonstration plots for practicals of the students is in progress. Besides teaching to the under graduate students, the work of tree plantation, renovation of old trees & solving problems of farmers by the technical staff is going on.

Mandate & Objectives:

- To standardize technologies for crop production, protection, harvesting, marketing, post-harvest utilization and also for livestock, poultry and fisheries for improving the standard of living of the farmers, farm workers and women.
- To create the confidence amongst the graduates for entrepreneurship, consultancy and self-employment.
- To create leadership amongst the graduates for rural development and integrated environmental sustainability.
- To ensure comprehensive and sustained physical, economic and environmental access to food and livelihood security through generation, assessment, refinement and adoption of appropriate technologies.

Faculty:

The proposal for sanction of teaching staff position as per V Deans Committee Recommendations for College of Agricultural Engineering and Technology, Kashti, Malegaon has been submitted to Government of Maharashtra. At present, the Pooled and Contractual Faculty is being utilized for teaching.
